Gastrointestinal tract

CaniGum® Digestovet

Dietary supplement for dogs
Supports the stomach and bowel and stabilises physiological digestion

Status 10/25

CaniGum® Digestovet is a dietetic complementary feed designed to support the stabilization of physiological digestion. Thanks to its convenient dosage form as a palatable snack, it can be easily integrated into everyday routines. The high level of acceptance ensures that daily administration is simple and reliable.

The chewable drops have been specifically developed for dogs with a sensitive gastrointestinal tract. They contain a functional complex that supports the entire digestive system, contributing to improved overall well-being. Carefully selected ingredients help soothe the stomach and intestines and provide support in cases of flatulence or increased grass eating. In addition, **CaniGum® Digestovet** helps optimize stool consistency, regulates intestinal activity, and supports the sustainable development of a healthy gut microflora.

This makes it a comprehensive solution for dogs prone to digestive sensitivity.

Essential nutritional physiological characteristics:
Feed additives in the functional group ‘gut flora stabilisers’

Composition:
Meat and animal by-products, vegetable by-products (psyllium husks, pumpkin seed expeller, fennel seeds 0.9 %, dried camomile flowers 0.6 %, dried apple pulp, alfalfa flour, pea fibre, carrot pulp, linseed expeller, Jerusalem artichoke, dandelion leaves 0.5 %, dried blackberry leaves 0.5 %), glycerine, oils and fats, propylene glycol, leonardite, yeast 2.0 % (MOS 0.5 %, beta-glucans 0.5 %), fructo-oligosaccharides 1.6 %, inulin, minerals

Analytical components:
Crude protein 27.1 %, Crude fat 19.7 %, Crude fibre 1.8 %, Crude ash 6.8 %, Moisture 13.0 %

Additives per kg:
Intestinal flora stabiliser: Bacillus velezensis DSM 15544 (4b1820) 250 x 10^9 CFU

Antioxidants, flavour enhancers

Feeding recommendation:
If at risk of, during or after digestive disorders.
Dogs receive: per 10 kg body weight 1 chewable drop daily. The quantity administered can be doubled if required.

Recommended period of use:
Up to four weeks. Plenty of water should be available for consumption during use. It is recommended to seek advice from a vet before use.

Notes:
Use up once opened. Store away from light and not above 25 °C. Seal the can well after use. Variations in colour and consistency are due to the use of natural raw materials. This does not constitute a loss of quality.

Durability:
24 months

Trading form:
300 g can (75 tasty chewable drops)
