...because We Love Dogs

NO BATHS, NO MESS, NO PROBLEMS

SO... WHO ARE NILAQUA PETS?

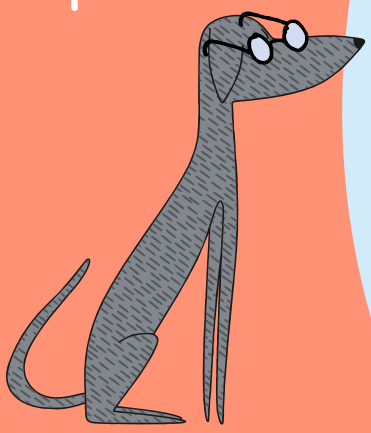

The team at Nilaqua are fanatical about pets and each have their very own four legged friend.

We love dogs so much and want them to be happy and healthy, acting like themselves and being free to enjoy the wonders of the world, without restriction.

However we appreciate as a pet owner it can be frustrating when they traipse mud through the house or roll in poo which may result in them getting a hosing down before entering the home (sigh) who's got time for that!

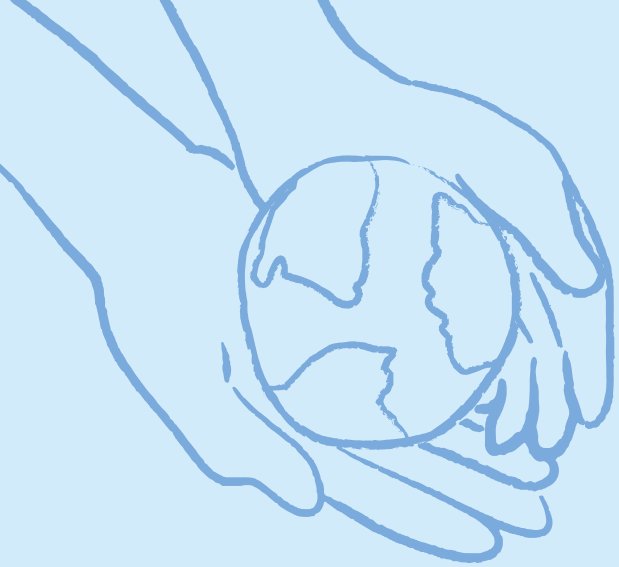

Nilaqua Pets enables our four legged friends to roam free enjoying life to the full and when these little accidents do occur, we provide the best solution! Nilaqua has proven results in minimising stress to you AND your dog.

We've designed and made a range of safe, easy to use products that genuinely resolve issues for the pet and pet owner - in the most ethical way possible.

Nilaqua Pets is part of the Waterless Limited family business, manufacturing all our products ethically with a strong stance on sustainable results.

We love to give back and strive to make animal welfare a priority. Our charity partners are Greyhound Rescue Wales.

ECO Pledge

Every day we see the effects of climate change, from longer droughts to polluted seas and beaches.

So what are we going to do about it?
Well... lets innovate and change what we can.

We won't bore you with how much we have looked into various materials, where they are made, working conditions and the energy it takes to make them. Our conclusions are to work with UK manufacturers for raw materials, using as much recycled plastic as possible, which is further recyclable.

We work hard to improve our products constantly looking for new innovative Net Zero materials. We've invested into a new premises set up with fully renewable energy with the facility being powered by highly efficient solar panels.

Nilaqua Pets has committed to:

- 100% Recycled labels
- 100% Renewable energy
- A minimum of 100% PCR bottles
- FSC accredited cardboard and wipes
- Organised environmental events
- Ethical Awards by The Good Shopping Guide
- Cruelty Free and Vegan friendly
- ISO documented environmental policies
- Made in the UK, reducing carbon footprint

Made in the UK

No water needed

HOW DOES THE NO WATER SHAMPOO WORK?

Nilaqua are the original inventor of “Towel Off” pet shampoo, developed over years of experience and working with vets. We believe our specialist formulas provide the ultimate clean. Other foams and sprays sit on the fur unlike our formula that easily removes the dirt.

Our dog shampoos are not just a refresh but a deep cleansing wash that leaves no residue. Designed to work without the need for water.

This is how to use the shampoo in 3 easy steps

Get a chilled out clean dog without the hassle of a hose or water

No water needed

Nose and Paw Balm

Soothing Jojoba

The benefits of Jojoba is that not only does it provide a moisturiser for dry and cracked nose and paws, it also soothes areas that maybe slightly inflamed or sore.

Ther all natural balm range is suitable for all dogs and skin types. Soft, nourishing balms for nose and paws. These balms are made with 100% natural ingredients so it's lick safe!

30g Jojoba - NP9T30
30g Chamomile - NP9V30

Calming Chamomile

The benefits of Chamomile is that not only does it provide a moisturiser for dry and cracked nose and paws, it also has a powerful calming effect, reducing anxiety and promoting sleep.

Micellar Water Cleanser

Get the perfect to gently wash your dog's face. Our ultra-soft Cleansing Micellar Water lifts away tear stains, food marks and everyday grime from delicate areas. While the soft reusable pads provide a kind and effective way to cleanse around the face, eyes and mouth. Infused with calming chamomile and completely sulphate free, it offers a soothing, no-fuss alternative to shampoos and disposable wipes.

Pack availabel with 4 reusable bamboo pads. Simply hand wash the pads after use and they're ready for next time.

100ml Micellar Water - NP11V100
100ml Micellar Water Cleansing Pack - NPMK1

TESTIMONIAL

Greyhound Rescue Wales has worked with Nilaqua Pets for a long time, we advocate using the marvellous shampoo in place of traditional shampoo when it comes to stressed dogs.

When they come into kennels we feel a wash or a shower is always a nice thing to do for them, but they can also can be nervous or even frightened. You can apply Nilaqua Pets by giving a dog a gentle massage and it really does remove the mud and dirt as well as odours, and it leaves the coat clean and dry. The pets are clearly happier with using Nilaqua and it can be done in sections if it gets too much for the dog. We also give them a quick clean up before going onto their forever sofa.

On a personal note, we take our dog on holidays to Europe, and Nilaqua Pets' Natural Repellent shampoo is a God-send.

Alain Thomas, Founder,
Greyhound Rescue Wales.
